

# West Side and City Suburban

## QUIET FOURTH-OF-JULY.

### Holiday Was Marked by an Absence of Undue Jollity.

The physicians, aldermen, police, hospitals and fire ladders all agreed that yesterday was very, very warm. Well, it was, the thermometer at different points registering from 93 to 95 degrees. There were no accidents of a serious nature under the care of physicians; the aldermen rested from "trying" labor; the police had but a few plain "drunks;" the hospital attaches were not harassed by broken and injured patriots. Altogether there was a terrific bark but no harmful bites. And the firemen just waited.

During the day the business houses were closed and the drug stores were hardly entered. Many of the West Side residents took advantage of the many excursions of the city. Nay Aug Falls, Mountain Lake and Laurel Hill park received a quota from this side. In the evening "Young America" broke loose and pandemonium reigned supreme. All sorts of things were used to create noise and success crowned their efforts to a marked degree.

On particular feature was the few intoxicated persons seen and these few were quiet enough, though several young men indulged in a little fracas in South Main avenue near Eynon street, which was broken up by friends and neighbors.

It was a day of huge enjoyment and no particular feature to mar or adulterate it apparently.

### SOUTH MAIN AVENUE REPAIRS.

South Main avenue, from Luzerne street to Eynon, is being rapidly put into first class condition. Messrs. Follows and Oliver, contractor of the fifteenth ward, are filling cutting and grading. The Traction company have lowered their tracks to the new grade, given by the City Engineer at the section between Luzerne and Rock streets, and during the week the street commissioner will have the road cut to grade. This part of the avenue was badly in need of a regrading owing to repeated settlements from mine cavings. In the course of a few weeks the street will present a changed appearance, and much benefit to drivers and property owners will result thereby.

### THE ROUND WOODS PICNICS.

The Sabbath school of the Hampton Street Methodist church met at the church yesterday morning and marched to the Round woods park and spent the day in the cool of the trees. Refreshments were served and a most enjoyable day was spent.

The Sabbath schools of the Welsh Calvinistic Methodist churches of South Main avenue and Bellevue joined ranks and spent the glorious Fourth-Fifth at the Round woods park. They had fine things in the way of refreshments and had a splendid time.

### THEY GATHERED PATRICK IN.

Patrick Mullen is an inmate of the Hillside Home. Yesterday Patrick took "French" leave of absence and came to the West Side. His enjoyment was short lived, for Lieutenant Williams and Patrolman Peters thought it better to detain him until his actual intentions could be learned. He was able

to hear but not to see or take any active part in the fun.

### SMALL BLAZE.

It was just an exploded fire cracker which lodged in the awning in front of the crockery store of John Limmer, of North Main avenue, and set fire to it. No fear was felt and no alarm was sent in. A man, a broom, a few pailsful of water and the flames were subdued. The only damage resulting was the partial destruction of the awning and the drenching of the man with the broom by the man with the water.

### INJURED WHILE CELEBRATING.

John Leslie, a boy residing with Mr. Moran, of Eynon street, was injured by exploding powder on Saturday night. He and several others were celebrating in the field at the rear of the house, and while standing near a can of powder a spark fell into the can and the powder exploded. The boy's face and hands were burned, but his injuries are more painful than serious.

### SAFE CRACKED FOR MILLIONS.

Trenton Bank Vault's Ponderous Doors Down with a Crash. Trenton, N. J., July 5.—The Trenton Banking company will transact business with its own cash Tuesday morning. The expert safe openers who have been at work upon the vault door since Thursday last pried the big outer door from the vault about 2.30 o'clock this morning. The door weighs about four tons, and it fell with a loud crash. Experts Kerigan and Corbett, in all of working the combination on Friday night, since which time men have been at work with sledge hammers and chisels trying to cut through the eighteen inches of chilled steel.

The vault was valued at \$300,000 in cash and many valuable papers. Only a Prank, but It Gave the Driver a Bad Scare. The driver thought some one had stolen the team and had the police looking for it.
